About damn time!
Listen Amy,
?
I'm sorry... for everything.
Amy, you look like hell!
You should've seen the baby before they cleaned him up.

She's BACK!!

Sabrina, what happened to you? I was worried!
Amy had her baby! I just got back from the hospital.
Carli only told me she had to leave. I didn't know it was because she was having the baby!
How is she?
It was a tough birth, but mother and baby are doing fine now.
Please give her my congratulations.
What happens next?
I get to help quickly slap together a wedding.
That sounds like a lot of fun ;)
a little more fun than Amy just went through, I'm hoping.

What happened here?
Sabrina! My hero!
I'm surprised the millenium bug hit you this hard!
Actually, we haven't made it out of our Y2K test yet.
Well, I'll see what I can do.
I'll be eternally grateful, sweets.
Peachy.
CLUNK!
Allright! What'd you do?
I flipped the circuit breaker. You had all the equipment on at the same time for the test, didn't you?
What am I, an electrician!?

He's beautiful, honey.
Thanks, 'daddy'
I guess this officially makes us a family now, Huh?
I guess so.
I love you, Amy.
Don't think this'll stop me from nailing you later for all the pain you've put me through.
Understood.

I've done a little reading up on this 'Amiga' of yours.
Hmm?
Now, where do I begin?
You Amiga users got jerked around by Commodore for years, until they went bankrupt in 1994.
uh huh.
The Amiga properties were bought by a German company that didn't do a lot, and went under themselves a year later.
Yeah.
Then it was bought up by Gateway, who promised advanced new stuff, then they changed their minds and dropped it all.
Your point?
My point - is I don't do that level of masochism in my films. What are you, in denial or something?
Of course not. You don't use computers much anyway. Why do you care?
Just curious.
Sold to - Amino?
...
This could be good.

* A rather oversimplified account of the history of the Amiga assets.

Finally back home.
Thank God.
IMPROMPTU BABY & BRIDAL SHOWER!!
SABRINA! the baby!
Oh, sorry. I knew you didn't get any kind of shower before now, so I did something about it.
Open your gifts!
A pink bubblegum cigar that says "It's a girl".
It was all I could find at the hospital gift shop.
and "Heroic Maximal Nightglider"
It's a squirrel, like you and - uh- half of little Timothy.
It's a flying squirrel. We don't fly.

Do you, Thomas Woolfe, take Amy Squirrel, to be your lawfully wedded wife, to have and to hold from this day forward, as long as you both shall live?

And do you, Amy Squirrel, take Thomas Woolfe to be your husband, to have and to hold from this day forward, as long as you both shall live?

So, things are calming down now?
Starting to, finally.
Amy and Thomas are settling in now with the baby. I'm at work right now, to give them some time alone.
Congratulations. I hope it all works out.
Would you like to try meeting at a restaurant or something? maybe this weekend?
Sounds great! Nothing could keep me away!

Tell me why I'm going to this thing again.
You're my resident computer geek.
This is the first show I've gone to since the website went up.
People are gonna be asking questions about it, and I need you there to field them.
Oh.
Now hurry up. the flight's boarding.
Hey, this is roomy! I've never flown in first class before.
I like to get the best.
...but if you'd prefer to be crammed together in coach, I can probably still arrange it.
No no, this is fine.

"Up, out, and away"

You did good work Sabrina.
For all I did. No one asked about the website.
Even so, I was glad for the company.
How many of those naked photos did you give away?
I autographed two-hundred and twenty-six of 'em - and thirty-two body parts.
People kept asking what films I was in, I don't look like a porn actress, do I?
Are you kidding? You'd make a great adult film star!
You've got a nice wholesome quality that would go over well.

I've had to deal with abuse like this my whole life. I can't believe I fell into doing it myself.
I'm sorry, Sabrina.
Well then, why?
Would you believe at the time, I honestly thought you wanted it as much as I did?
Would you believe I honestly thought you wanted me to smack you?

Check out Sabrina Online at http://www.sabrina-online.com

Y'know, everything you've done up to now has been a sexual harassment suit just waiting to happen.
You're right, of course. So why didn't you?
What?
Why didn't you sue me? Why didn't you tell me to lay off? Why didn't you quit?
Why did you even let me take you on this trip, if you thought something like this might happen?
I - I don't know. I lost my first job pretty fast, and I wanted to hold on to this one. Can you even claim sexual harassment at an adult studio?
I'm a little intimidated by you. I guess I didn't want to risk getting on your bad side.
Really? Girl, we gotta get you some self-esteem!
Tell you what, next time I get out of line, feel free to tell me to go to hell.

About why I tried to jump your bones, for one
Oh.

So - um, - uhh..
Yes?
Are you - gay?
Bisexual. I'm equal-opportunity.
It sorta helps in my line of work.
I'm assuming you're not, huh?
Afraid not.
Hmm. I guess my radar was jammed.
I can't put my finger on it but there's something about you I found very attractive
Maybe because I'm one of the only people at the studio you haven't slept with?
Possibly.
©EWS

Thanks for the rollaway bed. Sorry I dont have a tip - here.
!
Why do you do that?
Do what?
That's a big part of why I'm so uncomfortable around you. You're always touching, kissing, groping, or flashing people, like me!
Yeah, I'm the affectionate type. It's just part of who I am. I'm sorry that it bugs you.
I do what I enjoy. Life's too short to worry about embarassment and self-denial.
But you'll leave me alone from now on, right?
Now, I didn't say that! I think you still need to loosen up, and I can't just quit being myself.
I won't let things goas far as they did, however. I'll be more respectful.
But you'll still be annoying and embarrasing me?
What kind of boss would I be if I wasn't?

Check out Sabrina Online at http://www.sabrina-online.com

You don't talk much to anyone at the studio, do you?
not really.
You should. There are a lot of nice people there.
Y'know, my office is always open, if you feel like talking - about anything.
I don't have an office, but I guess I could say the same for you.
If I can't be your lover, I would love to try to be your friend.
I suppose I could live with that.
It's just too bad we can't be the kind of friends who have a lot of sex.
You'd better be able to live with that.

As usual, I should be thanking you!
I'd love to meet you again - in person I mean.

Oh sure, the CD drink tray, using the mouse like a foot pedal, I've heard it all.
Most of the time I just tell people to reinstall the software or reboot or something.
Well at least you're helping out - and getting paid for it.
Not bad pay either, since I'm Microsoft certified n' all.

56.6K PCMCIA MODEM
AMIGA O.S. V 3.5

What do you think?
Not bad. A little sparse compared to what I'm used to. How fast is it?
The main CPU is fifty megahertz.
Hm. Seems faster than that.
I'll be upgrading the O.S. to version 3.9 on this machine soon.
Also, the specs are out for the new hardware and software platform called the "Amiga One". I'll be looking long and hard at that when it comes out.
And that improves on this?
Considering the two have almost nothing in common, I really don't know.
